

THE SRM5131 SHAPE-UP MOMI ROLLER. TWICE THE POWER TO RELIEVE FATIGUE.

Now with the revolutionary Matoba SRM5131 Shape-Up Momi Roller, you'll be rid of aches, fatigue and muscle tension in no time.

Uniquely modelled after the age-old techniques of knuckle-kneading and finger-pressing, the Matoba SRM5131 Shape-Up Momi Roller ensures effective fatigue relief. With massaging rollers in the centre, and knuckle-shaped rollers at the side (which perform the same kneading effect of a foot reflexologist), it works deep into your body for the best results.

A choice of forward and backward roller direction coupled with variable speed control ensures the most suitable action to relieve fatigue. And you have the convenience of portability with its easy-to-carry handle and user-friendly design.

The Matoba SRM5131 Shape-Up Momi Roller. Try it today and feel its rejuvenating effects.
